## The Suburbanite.

The superintendent of a large uptown manufacturing plant, who is known to all Pres his friends as a very busy man, was called up on the telephone the other day by one of his suburban neighbors, who is in busi- Repr ness down town. The two men have barely a speaking acquaintance, but that fact | Ten did not prevent the down-town one from making the following request over the phone, which nearly staggered the busy ments fair. Thus far this week the re- superintendent: "Will you kindly stop at ceipts of sheep and lambs have gained over | my house on your way home and tell my 100 compared with the same time last week. wife, or, in case she is not at home, tell The receipts to-day were over 100 larger my mother-in-law to get the old paint than a week ago. In extreme cases sales were considered 25c higher and generally about 10@15c better than soften it, as I want to do some painting when I get home." Needless to say, the nervy suburbanite didn't do his painting that evening.

# BEARS RAID THE MARKET

LEVEL OF PRICES.

A Few Marked and Persistent Points of Strength-Better Conditions Govern Foreign Money.

NEW YORK, June 18 .- The pressure to sell stocks was effectual in breaking through resistance in the market to-day and carrying the general level of prices a few spots of strength persisting, and rallies by driving the room shorts to cover. ago, but quite a number of good light The bull element in the market by no \$7.266,166; balances, \$1,212,121 means abandoned it to the bears, and at erally was little if any different from the recurring periods, when the selling had spent its force, there was alert readiness to bid up prices without any desire manifested to secure stocks. Notwithstanding all devices, however, the selling was renewed in force in the final dealings and carried prices to the lowest of the day, except for those stocks which had manifested some strength. The closing was doubt engendered as to the real status of the much-discussed St. Paul deal. Investigation by some important authorities elicited the information that negotiations were in progress, as was candidly admitted, for bringing St. Paul within the scope of weighing 3,200 lbs, \$305; black team, five and | the community of interest working out in of the specific assertions which have been tingent which is making the St. Paul project the medium for its operations were stripped to pieces. The most important ers on the market were Al Fox, of Newark, further than an effort to secure the coholdings in exchange for co-operation of CORN CROP NEWS HELPS TO SWELL the holdings of the latter interest with those of the former in Northern Pacific. The holdings of the Morgan-Hill syndicate in St. Paul dating back to the efforts to secure control previous to the purchase of Burlington, are known to be large. Another weil-defined rumor had it that a to have been made to sell a large block of St. Paul stock to Union Pacific. St. Paul declined nearly 5 points, as a result of these rumors and Union Pacific about 3, and closed within a small fraction of the lowest.

Missouri Pacific suffered from realizing on the ground that all the good news regarding the stock was out, and the independent steel companies were notable sufferers from the same cause, the decline in Colorado Fuel reaching 10 and in Tennessee Coal 5%. The active exchange market was explained by the selling of bills against further intended gold shipments which will 4.25@ 4.50 go out on Thursday to Germany. It is expected that the shipment will reach \$2,000,-000 at least. The reduction in the German bank rate to-day is explained by the unusually strong position of that institution, and was taken in its quasi-public capacity

dition of distrust in financial circles in Berlin. The call loan rate here stiffened to 5 per cent. again to-day. The stocks which showed strength were influenced entirely by individual causes. The firmness of United States Steel was based on the dec- bulls, and under free offerings the market laration of dividends by subsidiary com-panies.
